- DeMoor lathe ready for Gabon
- Coming to you
- VALKOR Launch

DeMoor Model 825 S-360

We are excited to announce that the DeMoor Model 825 S-360 Hollow Spindle Oil Lathe is nearing the end of its refurbishment and will soon be ready for its new mission in Gabon. This equipment, renowned for its precision and durability, is designed to perform complex machining tasks, including high-tolerance part turning and

precise drilling. At Afrik Appro, we ensure that every used machine is thoroughly inspected and refurbished before delivery, guaranteeing optimal performance and extended service life.

Let's Meet

Until December 6th, Afrik Appro will be present in Abidjan, Pointe Noire, and Nouakchott as part of our ongoing commitment to continuously improve and position ourselves as the best partner for companies seeking reliable procurement and sourcing solutions. We are eager to meet with current and prospective clients to better understand your unique needs and tailor our services to support your growth. Call us today to schedule a meeting during our visit and let us discuss how Afrik Appro can adapt and enhance its services to meet your specific requirements.

Introducing VALKOR

We are excited to introduce VALKOR, Afrik Appro's dedicated brand for high-quality security wear. We are starting strong with a range of safety shoes designed to provide exceptional protection, durability, and comfort across various industries.

VALKOR is engineered to meet the highest safety standards, making it suitable for professionals working in diverse and demanding environments. With this launch, Afrik Appro continues to expand its offerings, reinforcing our commitment to being a trusted partner for safety and performance.

Stay tuned for more updates as we continue to develop VALKOR's product line to meet the evolving needs of our clients.
